

A photograph of three reflective spheres of different sizes resting on a dark, textured wooden surface. The spheres are highly reflective, showing highlights and distorted reflections of the surrounding environment. The wood grain is clearly visible, running horizontally across the frame. The lighting creates strong highlights on the spheres and casts soft shadows on the wood.

BRAVA™ & FERÍA™

EMBOSSED-IN-REGISTER (EIR) TECHNOLOGY

ALFATHERM in an exclusive design cooperation with Tafisa presents two new range of EIR wood grain decors, perfect in combination with stock collection of SERICA. Inspired by Teak, a noble and timeless wood species, BRAVA creates a lasting impression with its rich cathedral motif.

FERIA™: an original look capturing the essence of Hickory, a trusted wood known for its lightness and durability, with its grain characteristics and colour tones of warm variations and inviting appearance.

EIR Tortona Oak

EMBOSSED-IN-REGISTER (EIR) TECHNOLOGY

Elegant and stylish, Tortona Oak with its soft planking, small knots and fine linear appearance offers a new design for todays market. The synchronised pore of the embossing emphasises the character of this design

creating a very authentic look bringing it closer in appearance to real wood veneer. The Tortona Oak is an exclusive design co-operation with Egger.

redefining wood

EMBOSED-IN-REGISTER (EIR) TECHNOLOGY

Muted yellows and greys create a clean, fresh and vibrant décor.

Soft and silky are the words that come to mind with this décor coloured in light muted tones.

Frosty white combined to a true grey make for the sleek and sophisticated combination in our white feather design.

Chiffon

Silk

Feather white

Nobella

The Nobella finish displays multiple planes of honed and flowing woodgrains. It's subtle shift in glosses create a play of shadow and light that emphasizes the raw refined softness of natural wood.

Stone grey, solid and grounding, the perfect backdrop that shows just enough character without stealing the stage.

Mysterious and intense, Ombre plays with shadow and light to create a visual depth that begs to be seen.

Lush and saturated colorations amplify the wood grain of this time honored and sought out wood essence.

EIR Brushed Elm

EMBOSSED-IN-REGISTER (EIR) TECHNOLOGY

ALFATHERM's breakthrough in-register synchronised embossing technology sees the introduction of this design matched to UNIBOARD colours Skye/Driftwood/Mystic/Zahara/Silva/Ember.

This is an elegant design with a deep brushed rich texture matched to the grain, and the 3-dimensional nature of the laminate creates a

strong distinctive character but with natural authentic elements that will stand the test of time. Never before has 3D laminates (foils) looked and felt so much like "THE REAL THING". Combine the brown and grey colour of this wood grain with our SERICA colours and strike a perfect balance between kitchen and living room areas.

EIR Olmo Odeon

EMBOSSED-IN-REGISTER (EIR) TECHNOLOGY

This Elm décor is an elegant design with beautiful small cut flowers and a well balance layout producing a very modern appearance. A natural look is achieved with the deep grain synchronised embossing pore of the print which allows this classic décor to fit in any room in the home creating great style. Available in a range of grey and brown

tones Olmo Odeon is totally inline with today's market trends which are demanding strong distinctive characteristics combined with natural authentic elements that stand the test of time.

In combination with ALFATHERM's SERICA natural solid colours a harmonious blend is achieved creating a perfect balance.

Perlescent

Stone ash

Grizzly

Brown

Dark

This Schattdecor print has a beautiful cathedral element at the heart of the design and the white pore brings a distinctive characteristic to the appearance. Alfatherm's pioneering EIR (Embossed-In-Register) technology once again

brings a man made material closer to the look and feel of the natural product, as close to real wood as is realistically possible. SERICA's collection offers a range of options to co-ordinate these three commercial colours in winning combinations.
